QUESTION USPA : HOW DID YOU PREPARE THIS 3RD EDITION OF THE WORLD NORMANDY FORUM FOR PEACE DESPITE THE COVID-19 PANDEMIC?-----

ANSWER CATHERINE MORIN -DESAILLY: It is always a realization of the success of a project, then follow its evolution and the 3rd edition, of this year, is significant I am delighted to see the very many personalities who matter and moreover in this period of COVID-19 , knowing the absence of participants wind from abroad the crowd was strong. This edition bears witness to its objectives and promises with high quality and structuring debates with constructive contributions. It is not a "One Shot" environment, but built with continuity.

QUESTION USPA: YOU ARE VERY COMMITTED SENATOR AND EAGER TO GET THE MANIFESTO OF PEACE TO BE IMPLEMENTED. HOW SHALL YOU PROCEED IN THAT MATTER ?-----

ANSWER CATHERINE MORIN -DESAILLY: This operation lasted the rest of the year with this platform, due to the quality of its content and reflects well, what thinks my President of Region Hervé Morin and Francois Xavier Priollaud, the Vice President as well as the rest of the Team. « NORMANDY FOR PEACE », is a label and to reflect on lasting peace. The idea is to be able to think about how we can bring people together around an idea of "peace and through members of governments and all those who work for peace, including NGOs. But to get this message of peace from countries to countries, in the world, it is necessary to identify life issues and vote for the law and the budgets of the nation have a role of world diplomacy. I undertook discussions on this subject with Marie France Kenny, who is a senator in Canada, and thanks to the Senate and the natural links we have, we can bring our stone to the building and carry high, the brand "NORMANDY FOR PEACE", and at the same time congratulate all the themes. All this is thanks to the confidence obtained by our charter, resulting in a manifesto, this platform has collected the signatures of a great many parliamentarians from Europe and the list of signatories will grow through other countries.-----

We will bring all this to life, and bring together active actors, for example, where we are committed to supporting all the operations of

civil society and NGOs, as well as public and private institutions on transnational issues and a whole series of subjects, like the IPCC, for the climate for example. It is about promoting tools of cooperation between countries, throughout the year. This is done in the manner of the "NOBEL OF PEACE", as if to launch a " DAVOS OF PEACE "where the noblest resolutions are taken and retained, identifying the issues and reasons for conflicts and finding a contribution to peace.

QUESTION USPA: AS A WOMAN OF ACTION AND COMMITTED, HOW WILL YOU MAKE THE RESULTS TO EMERGE WITH A REAL SOCIAL IMPACT VIA THE WORLD FORUM OF NORMANDY OF PEACE?-----

ANSWER CATHERINE MORIN -DESAILLY: Women are always very concrete and the value of women is very important in the peace process, everywhere. For example, for the "MEE TOO" movement, and others, women mobilized against totalitarianism and the regimes of war or the women's humiliations and violence. As matter of fact, I thought of making things happen for this young Iranian lawyer Nasrine Soutoudeh, death threatened, because she was defending the cause of women. I proposed that together with lawyers from the area we take peaceful action to help save her.

QUESTION USPA: DURING THE COVID-19 OUTBREAK ESPECIALLY THE LOCKDOWN PERIOD HOW DID YOU HANDLE THE CRISIS MANAGEMENT AS A SENATOR?-----

ANSWER CATHERINE MORIN -DESAILLY: During this period of confinement linked to COVID-19, I was very attentive to the mayors and other elected officials, ie parliamentarians every Friday we held web-conferences meeting, for reasons of practical brakes. We talk at the very daily figures and we were relays for the elected officials, I worked on peace of mind.

I have also responded a lot to calls to schools and made the link with the Ministry of National Education. I was able to influence so that there is no school card because we have a significant demographics at the time of the counting of closing classes. And, then in full confinement, we did our utmost to avoid class closures. That's the senator's cap, but I also had to manage the attractiveness and tourism in the March of culture and sport and tourism, in our region of Normandy.

We had to react quickly and therefore we set up cultural actors for scenes, shows, festivals and decided and together we decided to maintain the bookstores and theaters. For this and we created an emergency fund to support cultural actors, through regional subsidies, in this time, the President of the Normandy Region, initiated reconciliations with the prefect and we built the modalities with the acts themselves. And then we immediately think of the relaunch with the emergency fund from September 1st and we will build a bridge with the structures and administration of Rouen.

QUESTION USPA: UNESCO's AMBASSADOR VERONIQUE ROGER LACAN ANNOUNCED TODAY THE PARTNERSHIP WITH THE WORLD FORUM OF NORMANDY OF PEACE ON AN EDUCATIONAL & CULTURAL PROJECT. YOU MUST BE VERY GLAD OF THIS ANNOUNCEMENT, AS YOU CHAIR THE CULTURE COMMITTEE AT THE SENATE?-----

ANSWER CATHERINE MORIN -DESAILLY: Yes I'm very glad of the partnership with UNESCO. And yes, everything is to be done, even the Senate with the Committee of Region, culture and education I made it enshrine in law. I helped to set up cultural rights which allow us to deal with all audiences with accessibility to all people, even those with disabilities, and made them vote, under the name of "Creative Territories in 2015. We even put this online, on a site whose construction is the backbone of cultural rights, so the initiative of the Normandy World Peace Forum is in perfect linearity with the right to culture and science. Cultural rights are written into the specifications of most of the structures we support. The Region has put in place labels and carries this requirement through these agreements. I also think science is very important, because during COVID-19 there was everything that was spreading from everywhere, genuine news and fake news. All this is not enough, we must also provide for the popularization of science through audio visual for the public. I also answer present when it comes to the audio visual field to the Senate that I manage, to allow access to all, via this media.
